RE: Angelina Gathering Company, LLC – NSPS 40 CFR Part 60 Subpart JJJJ Commencement of Construction Notification as Required in 40CFR60.7(a)(1)

To Whom It May Concern:

Angelina Gathering Company, LLC respectfully submits this Notification as part of the compliance requirement detailed in Subpart JJJJ of 40CFR60. According to 40CFR60.4245(c), "owners and operators of stationary SI ICE greater than or equal to 500HP that have not been certified by an engine manufacturer to meet the emission standards in Section 60.4231 must submit an initial notification as required in 40CFR60.7(a)(1)". Further, 40CFR60.7(a)(1) requires that notification of the date construction of an affected facility is commenced to be postmarked no later than 30 days after such date. Specifically, as stated in 40 CFR 60.4230, the EPA has stated that "the date that construction commences is the date that the engine is ordered by the owner or operator".

Therefore, the information available at this time related to the subject engines is included on the following page.

If you have any questions regarding the information in the notifications, please contact me at (501) 548-6728 or at Travis_Lee@swn.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Travis Lee", written over a horizontal line.

Travis Lee
